

REMARKS/ARGUMENTS

Claims 16-23 are pending in the present application. No claims were added, amended, or canceled. Reconsideration of the claims is respectfully requested.

I. Examiner Interview

Applicant thanks Examiner Pardo for all the courtesies extended Applicant's representative during the May 9, 2006 telephone interview. During the interview, Examiner Pardo indicated a terminal disclaimer would overcome the rejection of the claims. The arguments discussed as well as additional reasons that the claims are allowable are set forth in the remarks below.

II. Double Patenting Rejection: Claims 16-23

The examiner has rejected claims 16-23 on the ground of nonstatutory double patenting over claims 1-12 of *Brown et al.*, Web Page Thumbnails and User Configured Complementary Information Provided from a Server, U.S. Patent No. 6,665,838, December 16, 2003 (hereinafter "*Brown*"). A terminal disclaimer regarding U.S. Patent No. 6,665,838 has been filed by Applicants. Therefore, the rejection of claims 16-23 under 35 U.S.C. § 103 has been overcome.

III. Allowed Claims

Applicants thank Examiner Pardo for indicating claims 16-23 are allowable. Accordingly, Applicants respectfully submit that the subject application is now in condition for allowance.

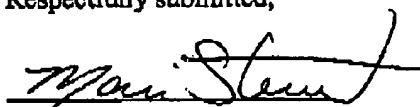

IV. Conclusion

It is respectfully urged that the subject application is patentable over *Brown* and is now in condition for allowance.

The examiner is invited to call the undersigned at the below-listed telephone number if in the opinion of the examiner such a telephone conference would expedite or aid the prosecution and examination of this application.
